PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science Engineering student with hands-on experience in MERN stack development. Proficient in Java, JavaScript, React.js, Node.js, Express.js, and MongoDB. Developed real-world projects including an AI Fake News Detection System and a Contact Management System. Strong problem-solving, teamwork, and communication skills with a passion for building scalable web applications. Seeking an entry-level Front-End or Full-Stack Developer role to contribute and grow in the IT industry.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication

Database: MongoDB, MongoDB Atlas, Mongoose, MySQL, SQL Server

Tools & Practices: Git, GitHub, Version Control, API Integration, Axios, Postman, Responsive UI/UX, DSA (LeetCode)

EXPERIENCE

Intern — Team Infosoft

Feb 2025 – Present | Tirunelveli

- Engineered full-stack features across the MERN stack — building React.js UI components and Node.js/Express.js REST APIs for live web applications
- Collaborated with the development team on version control (Git/GitHub) workflows and code reviews for feature integration

Intern — Postulates Info Tech Private Limited

Jul 2025 | Thoothukudi

- Applied cloud computing fundamentals across all 3 service models (IaaS, PaaS, SaaS), covering virtualization and deployment models
- Analyzed cloud infrastructure, networking, and security concepts through hands-on exposure to cloud storage systems

PROJECTS

Campus Resource Booking Platform

2025

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT Authentication, Bootstrap/CSS

Full-stack web application for managing and booking campus resources (labs, seminar halls, classrooms) with role-based access for students, faculty, and administrators.

- Architected role-based dashboards for 3 user roles (Student, Faculty, Admin) with secure JWT-based authentication
- Engineered a resource search and booking system covering 3+ resource types (labs, seminar halls, classrooms) with real-time conflict validation
- Automated full CRUD operations for resource management, including booking history and status tracking
- Optimized UI responsiveness for a consistent experience across desktop and mobile devices

Contact Management System

2025

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Mongoose, REST API, Axios, CSS/Bootstrap

Live Demo: contact-management-system-eight-smoky.vercel.app

Full-stack contact management system enabling users to securely manage personal and professional contacts with complete CRUD functionality on a cloud database.

- Engineered RESTful APIs handling core contact fields (name, email, phone, address) via Axios for seamless client-server communication
- Deployed the application on Vercel with MongoDB Atlas and Mongoose for cloud-based data storage and schema modeling
- Automated form validation and error handling for reliable data entry
- Optimized responsive layouts for desktop and mobile devices

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Multicloud Architect Professional — Oracle (Aug 2025)
- Data Analytics with Python — NPTEL, 12-Week Course (Jan 2025 – Apr 2025)
- MongoDB — Credly (Aug 2025)

EDUCATION

AAA College of Engineering and Technology

Sep 2023 – Aug 2027

B.E. Computer Science Engineering

LANGUAGES

Tamil, English
